

Ποιο είναι το αναμενόμενο data rate, MCS index και supported modulation στο 802.11ac αν

- a. Guard interval 400ns, 20MHz channel, 1 spatial stream, received power=-62dBm
- b. Guard interval 800ns, 20MHz channel, 2 spatial stream, received power=-58dBm
- c. αν Guard interval 400ns, 40MHz channel, 3 spatial stream, received power=-58dBm
- d. Guard interval 400ns, 80MHz channel, 4 spatial stream, received power=-52dBm
- e. Guard interval 800ns, 80+80MHz channel, 5 spatial stream, received power=-46dBm
