

Ποιο είναι το αναμενόμενο data rate στο 802.11n στις πιο κάτω περιπτώσεις:

- a. Guard interval 400ns, 20MHz channel, 1 spatial stream, received power=-69dBm
- b. Guard interval 800ns, 40MHz channel, 1 spatial stream, received power=-60dBm
- c. Guard interval 400ns, 20MHz channel, 2 spatial stream, EQM, received power from both spatial streams=-63dBm

Ποιο είναι το αναμενόμενο data rate στο 802.11n στις πιο κάτω περιπτώσεις:

- a. Guard interval 400ns, 20MHz channel, 2 spatial stream, EQM, received power from both spatial streams=-72dBm
- b. Guard interval 400ns, 40MHz channel, 2 spatial stream, EQM, received power from both spatial streams=-72dBm
- c. Guard interval 400ns, 20MHz channel, 2 spatial stream, UEQM, received power from spatial streams=-64.5dBm and -72dBm respectively
